

Ultimo Technology

Expanded Polystyrene Degradation Solution

WIT received BOCHK Corporate Environmental Leadership Awards 2020 - EcoPartner

We are pleased to announce that WIT Holdings Limited (WIT) received the “BOCHK Corporate Environmental Leadership Awards 2020 - EcoPartner” (“the EcoPartner Award”) on 3 September 2021. The EcoPartner Award was organized by the Federation of Hong Kong Industries and sponsored by Bank of China (Hong Kong) (BOCHK), aiming to encourage and recognize enterprises of manufacturing and services sectors operating in the Pan-Pearl River Delta region for their environmental performance in reducing environmental footprint.

Corporate Environmental Leadership Awards

Through Ultimo Technology™, EPS wastes are speedily degraded and are converted into recycled polystyrene raw materials, which facilitate circular economy. The EcoPartner Award has given us new impetus to further enhance our patented Ultimo Technology™ and to continue our dedicated efforts in tackling white pollution created by expanded polystyrene (EPS) in Hong Kong. We are committed to continuing our work to enhance our recycling ability in the months and years ahead.
